

# COVIDSafe Plan

---

November 21, 2021

## About the COVIDSafe Plan – Roadmap to Post Covid Normal

At Waverley Yoga Studio we are committed to doing our part to keep you safe, to keep ourselves safe, and to contribute to Victoria's ability to 'Stay Safe, Stay Open'. As such, please take a moment to review our COVID Safe plan. We will revise this plan as new changes are put forth from the government(s).

## Our COVIDSafe Plan

### Social Distancing:

- ❖ No density limits but please space your mats out using marked areas.
- ❖ Zoom classes will continue for the time being.

### Practicing Good Hygiene:

- ❖ Hand sanitiser can be found at the top of the stairs, at the reception desk, and in the bathroom.
- ❖ Please spray any equipment you use with Glen20.
- ❖ We wipe down the contact points after every class (handrail, door handle, light switches, toilets, etc).
- ❖ If you use the toilets, please spray any area you touch with Glen 20 and wash your hands for 20 seconds minimum.
- ❖ Hand towels have been replaced with paper towels.
- ❖ We will continue these practices into 2023.

### Face Masks at 90%:

- ❖ Face masks are no longer required in the studio.  
*Please note:* please keep current with mask mandates.

### Vaccination:

- ❖ It is a government mandate that only those who have had both doses of vaccine will be able to enter for the time being. We hope that it will only be for a limited time. In the meantime, we will keep Zoom classes running so you can keep you practice.  
*Please note:* While we realise that this is the most contentious of the Covid policy, it is incumbent upon us to participate in order to maintain a safe business, not get fines that would make it financially perilous for us, and risk our insurance assistance if an outbreak does occur and we are deemed liable for non-compliance with regulations. Thank you for understanding.

### Record keeping:

- ❖ Please use the QR scan on the reception desk as you come into the studio to allow us to maintain tracing. This is a legal requirement and businesses can be fined for not using it. If your phone doesn't work on the app, please chat to the teacher and use their phone.
- ❖ We will keep a record of having sighted your vaccination certificate, so you won't need to show it every time you scan in.

### TLDR (Too Long, Didn't Read):

- >Continue to practice Covidsafe hygiene practices.
- >Use the QR code to record your visit here.
- >Get vaccinated (or approved exception).

If anything is making you uncomfortable, please talk to Danni, who is very willing to listen. 😊
